Overview of Pathways

Pathways for Normal (Academic) Students

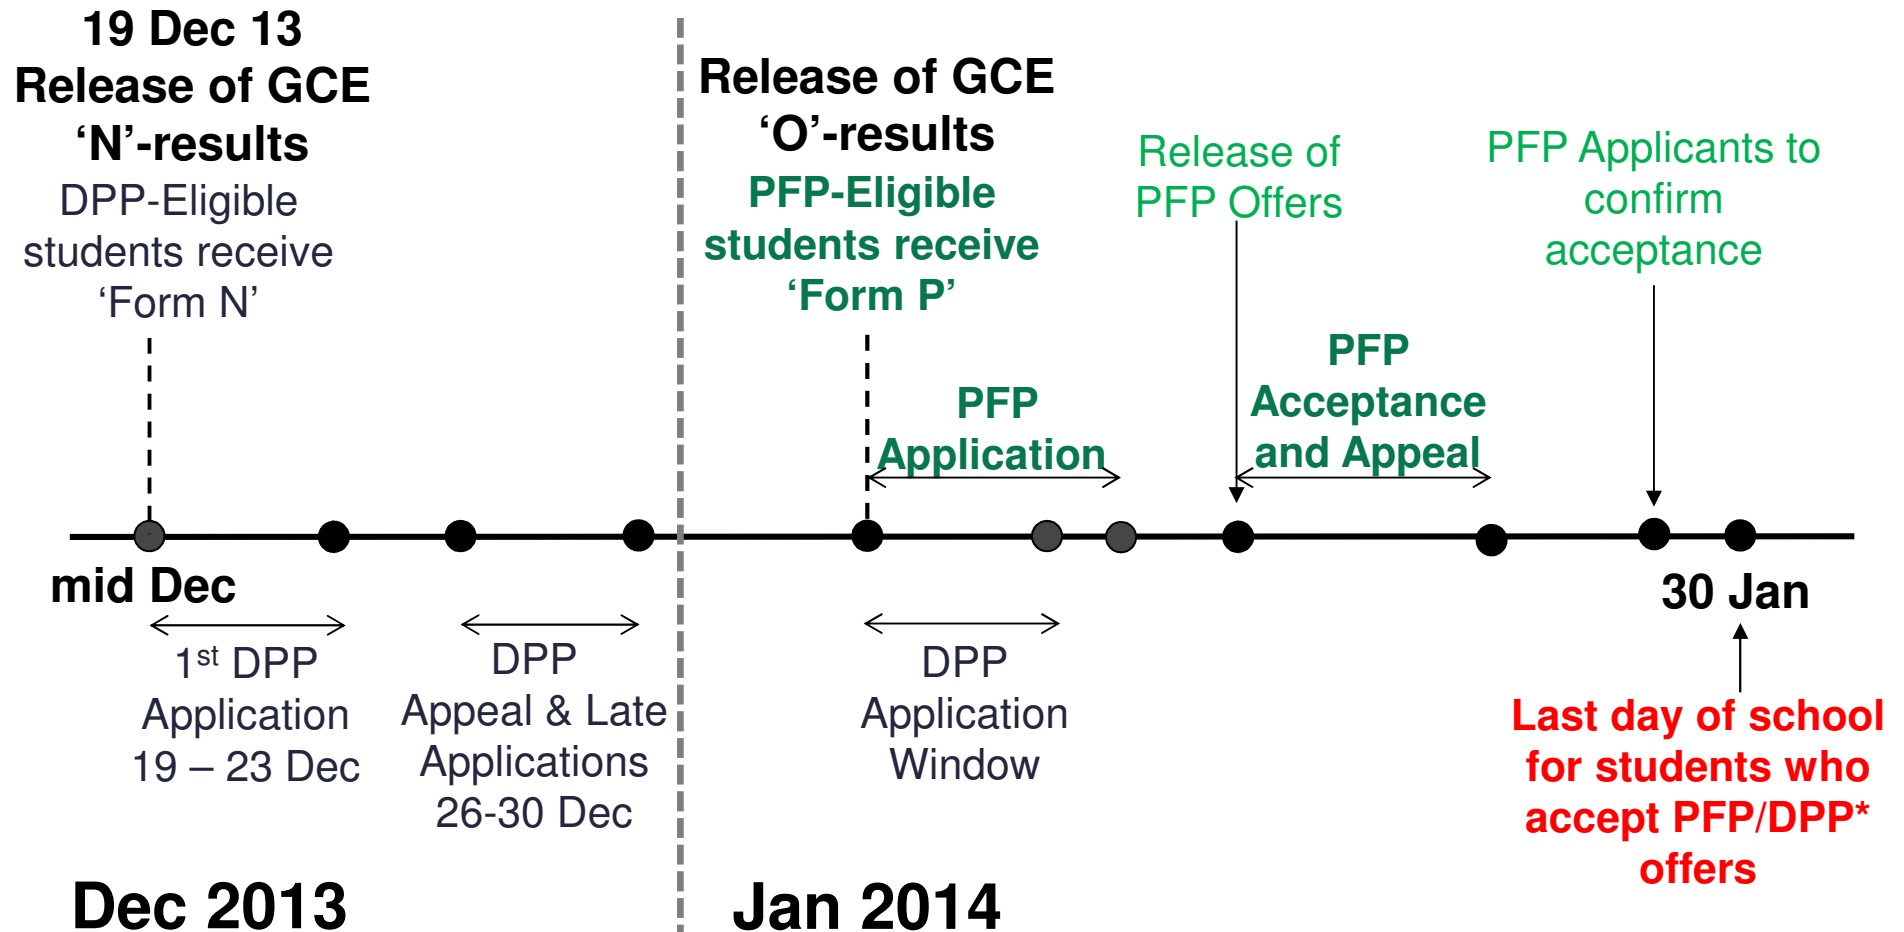

Computation of ELMAB3

- ▶ Combinations to compute ELMAB3:
 - GCE N(A)–level results only
 - GCE N(A)–level + GCE O–level results
 - Firm offer after GCE “O” release (i.e. only invited after GCE “O”)
- ▶ Students offering duplicate subjects at both N– & O–levels: ELMAB3 computation for PFP/DPP will take the better grade

Timeline for DPP / PFP 2014

For students who are only interested in the PFP:

- You should progress to Sec 5, and apply for the PFP in January. Students who have accepted their PFP offers will withdraw from Sec 5 by the end of January.
- Being eligible to apply for the PFP **does not guarantee a successful** placement into a PFP course.

For students who are only interested in the DPP:

- You should apply to the DPP between 19 to 23 Dec.
- Students who have accepted their DPP offers in December should **not** continue with Sec 5.
